- ✓ Iterative testing and code reviews through development of the application.
- ✓ Developed the system Unit.
- ✓ Integration Testing & debugging.

EDUCATION QUALIFICATION

Gujarat Technological University

Bachelor's degree in Computer Engineering
Year – 2008

EXPERIENCE

FlightSpeak

[Jul 2016 – Present]

FlightSpeak helps busy travelers glide through airports by equipping them with updated, personalized information of over 300 airports in the palm of their hands. Helpful airport information such as the most secure WiFi connections, the latest TSA information, where foodies go to eat at airports, the nearest bar open right now, where to get picked up by your Lyft or Uber driver, the nearest play area to let your kids (or pets) get out their wiggles before the flight, and much much more!.

Key achievement:

I have made the product developed with the great team of mobile and web developers. I have worked as Sr. iOS developer. Worked on Ionic Framework, AngularJs, NodeJs and Cordova.

FoodQ, India

[Sep 2013 – Jun 2016]

We all love to go out and try new restaurants. But a long waitlist can ruin a culinary experience before the first bite. FoodQ was born from our food-loving team's frustration about waiting—and our always-churning creative minds. FoodQ allows user to jump in to the waiting queue from anywhere and replaces the traditional reservation system with a real-time application. It provides many features like placing the order with digital menu, pickup & feedbacks for end users. FoodQ redefines restaurant business with a smart dashboard providing different analytics, reports, bulk SMS with graphs, easy billings system and many other unique features.

Key achievement:

As a Founder of FoodQ, I have made the product developed and launched in my city with the great team of mobile and web developers. We signed up with more than 75 restaurants in very short time and also recognized by reputed newspaper for our efforts and help to the people of our city

Coastal Charm

[Oct 2011 – Aug 2013]

Coastal Charm was formed by Brian Ryals, his business partner John McGovern, and his 24-year-old niece Taylor Myrick in the summer of 2016. The market for “preppy” and comfortable clothing had been

dominated by brands boasting their ties to the South, but having both grown up in the mid-Atlantic resort town of Virginia Beach, Brian and Taylor wanted to inject some saltwater into the veins of our nation.

Key achievement:

I have worked as senior web developer in this project. Launched in usa with great mobile team and web developer. Created in opencart and worked on web services.

Esaver

[Sep 2009 – Sep 2011]

eSavers.co is an online shopping website that is purely dedicated to lifestyle, electronics and office equipment's. We have more than 30 Product Categories and more than 25,000 Products to select and shop.

Key achievement:

I have worked in esaver with big developer team. I was project leader in esaver and developed some feature in esaver. esaver launched in oman.

Sabzilana

[Jun 2008 – Aug 2009]

Sabzilana.com is an online portal where one can select and purchase a wide variety of fruits and vegetables merely sitting at home. We aim at making the lifestyle of our customers much simpler. With the ease of a click, fruits and vegetables reach your doorstep saving all the muscular and time consuming tasks.

Key achievement:

I have made an online shopping site with small team. I have crated wallet feature in sabzilana. User can add money in his/her wallet and coupon code functionality integrated in it.
